About Me

I am **Abdul Manan**, a passionate **Frontend React.js Developer** specialising in React.js and Tailwind CSS. I build clean, responsive, and high-performance web applications. I recently completed a **POS system** and a **real-time trading dashboard**, and am actively learning **Node.js & Express** to grow into a full-stack developer.

Work Experience

React.js Developer

2024 – 2026

Digital Application • Full-time

- Built 5+ production React.js apps using Hooks, Context API, and component-based architecture.
- Designed responsive UIs with Tailwind CSS ensuring cross-browser and cross-device consistency.
- Integrated RESTful APIs & Firebase for real-time data, authentication, and cloud storage.
- Delivered a complete POS system and a live trading dashboard with charts and portfolio tracking.
- Used Git & GitHub for version control, code reviews, and team collaboration workflows.

WordPress Developer

2023 – 2026

Fiverr – Freelancer • Freelance

- Completed 20+ client projects with Elementor, custom themes, and responsive layouts on Fiverr.
- Built custom blog themes from scratch with clean code, modern typography, and reusable components.
- Maintained a 5-star rating by meeting deadlines, clear communication, and exceeding expectations.
- Applied SEO best practices, image optimisation, and caching for faster page load times.

Key Projects

POS System

React.js • Firebase • Tailwind CSS

Full-featured Point-of-Sale app with product management, real-time inventory, cart system, and a sales-reports dashboard.

Trading Dashboard

React.js • REST APIs • Chart.js

Real-time trading analytics with live price feeds, interactive charts, portfolio tracker, and complete trade history.

Education

BSIT – Bachelor of Science in IT

2023 – 2027

Emersson University, Multan

Currently in 2nd year • Courses: Web Dev, DSA, OOP, Databases, Networking

Intermediate (FSC Pre-Engineering)
